## LIMITED TIME OFFER!!!!

The New Rubber Roof System is a single compound, SBS Rubber reinforced which forms an elastometric roof system. The New Rubber Roof System has excellent elongation properties, good **HOT** weather pliability and excellent water and weather resistance with a rubbery form. It is tough, flexible, elastic with a rubber like film. It has excellent water/vapor resistance & excellent weather resistance. This New System has a good resistance to salts and alkalis.

**This system is made for metal, flat roofs and gravel roofs.**

\* Gravel must be removed to apply New Rubber System

All Work IS Supervised By Owner— No Job Too Big or Too Small

Our Rubber Roof System for Entire Roof and Flashings is an 8 step process including patching alligator cracks with rubberized cement, cutting air pockets and resealing, as well as building up low areas, applying insulation, rebuilding flashing and coating with rubber. New Rubber Roof System will be applied over entire roof and flashings.

**This system will carry a (10) Ten Year Guarantee**  
Total Price to apply the rubber roof system including labor and materials is:

## **99 Cents per Square Foot**

Gravel Roofs or Aluminum Coating is applied, add 15 cents per square foot
