**OSHA COMPLIANCE / FORKLIFT OPERATORS MUST BE TRAINED:**

Employers must ensure that a site and equipment specific training program is provided for each employee driving a powered industrial truck. Operators are to receive training, evaluation and certification for their related equipment, loads and environment.

Documentation for each employee successfully completing the operator safety program are to be kept on file and made available upon request. Failure to comply could result in fines up to \$7,000.00 per untrained driver.

The powered industrial lift truck train-the-trainer program has been developed for those with experience and knowledge on the lifting equipment being used. Upon completing this class attendees will return qualified to *Train, Evaluate and Certify* other employees.

Attendees can expect to learn how to prevent the most common safety hazards related to lift trucks. Learn how to meet and exceed record keeping requirements. Learn what compliance officers look for. Learn up-to-date information on ANSI, ASME, NFPA, Federal and State OSHA laws and regulations. Learn how an in house program can save your company time and money. Learn the most effective way to increase safety at your workplace 100% satisfaction guaranteed.

Please note class size is limited to ensure maximum teacher-student interaction. Registration forms are processed on a first come, first serve basis. If you are looking to update or initiate a lift truck operator training program, please fill out the registration form below and fax it back to 1-888-683-8009 or call 1-888-683-8007 for further details and phone registration.
