Spinal ligament injuries are the #1 cause of disability, and pain, worldwide!

Hilltop East Bays Imaging and Diagnostic center
Invites you to learn about Spinal Kinetics CRMA™ spinal ligament testing.

Spinal Kinetics, US MD, DO Radiologist company, worldwide leader in the evaluation of spinal ligament injuries. Using stress radiographs of the cervical and lumbar spine. Spinal Kinetics evaluates for abnormal, and excessive spinal motion at every vertebral level. Their proprietary software generates a CRMA™ (computerized radiographic mensuration analysis) report.

- **Stress X-rays submitted to Spinal Kinetics online** Pacs system, Box, Dropbox, or **pre-paid FedEx** for CD or analog.
- Quickly know the integrity of each nerve level, ligament, disc, facet for orthopedic, and neurological assessment for **ICD-10 compliance.**
- CRMA™ allows doctors to comply with ICA, ACA, CCP, and AMA treatment guidelines.
- **AMA impairment guide is used**, and any severe injuries are rated by MD or DO board certified radiologists.
- CRMA™ is has been used as expert scientific evidence in court, and has met; Daubert, Frye criteria for valid legal/scientific evidence.
- Doctor bills and collects for their X-rays. Spinal Kinetic provides a CRMA™ report and bills for a separate and distinct service.
- **Spinal Kinetics accepts:** attorney LOP, LIEN, Workers Compensation, some insurances, cash, and bills auto insurance companies directly.

"Early detection with Spinal Kinetics standard assessments will lead to better treatments, better results, and better benefits for all parties involved". Spinal Kinetics is the **Measurable Difference.**
