Sue

Just wanted to follow up with you on your merchant credit card processing to see if you were ready to make a switch or get a quote from us. We **guarantee** that we will lower your total credit card processing costs from your current processor or we will pay you \$1000.00. Period. There are no setup or application fees, no long-term commitment, and we even offer a free terminal. We will make the transition quick and painless so you will not be hassled or have your operations disrupted. Give me a call and we will put together your quote/analysis right away (have one of your recent merchant processing statements ready). We also provide working capital loans as well as equipment financing for any type of business equipment at exceptional rates, if you have any needs in those areas.

Regards,

Richard Lee
