

FAXED
6-7-16

Are you tired?

- Tired of having to pay ALL the bills for your office?
- Tired of working 5-6 days a week to pay overhead and just to make a living?
- Tired of being a new graduate and not having enough money to start an office?
- Tired of being told you need to borrow more money to start a practice?
- Tired of not having your own practice, working for someone else?

I have an immediate opening for a DC (1, 2, 3, 4, 5 or 6 days per week) in my established San Gabriel Valley office.

There will be an opportunity for a future buy out.

Come and operate your own practice as an independent contractor, sharing office space for a flat monthly fee.

No percentages or hidden fees. You provide phone, your own billing, and your own malpractice.

All use of office equipment, therapy units, wireless internet, included.
