*by Installer*

Hi,

My name is Alex.

I am a window installer.

I have been working for one of the largest window companies for 22 years.

I had many wonderful years being a part of a good and reliable company. My partner Mike and I, were the best installation team in the company, our main office always gave us the most difficult projects. We solve problems all the time. Windows were installed the right way, to make our clients and the main office happy at all times.

I was busy.

However, for the last few years the economy has been struggling, especially for renovation companies. For the last two years I received less and less installation orders from my office. It was a hard time for me and my family. I have three wonderful kids and as a man of the household it is my job to support them financially.

Mike and I decided to run our own business and do our own window installations. We get windows directly from the factory and install them for home owners like you.

No office, No secretary, No sales people, No middleman, No hidden fees, No extra expenses from your pocket !

**You will save more than 60% on your project !!!**

Call me today and I will come to your place, I will give you an absolutely free consultation on how we can install new windows the right way and of course for the right price.

If you become my client, you will receive all that you expect from any reputable window company. I will give you a lifetime warranty for windows and my labor. I am fully certified, I have all necessary licenses, certificates, insurance and WSIB. Call me and you will receive a full top of the line service, for a special price from Windows by Installer.

I have been a window installer all my life, I love my job. I love my clients. I like to see smiling faces.

Give me a call today 416-900-7070 and you will be happy! I always keep my word.

Regards,

Alex
