First Global 'Monster' Employment Placement Service Launched

Concorde America to Place Over 200,000 Workers in Spain.

BOCA RATON, Fla., Jul 28, 2004 /PRNewswire-FirstCall via COMTEX/ -- Nations of the European Union are currently faced with a crisis of global proportions that can be summed up in three words: zero population growth. One of the most critical and immediate side effects of this is the strain it puts on the individual and collective economies of each nation as a result of the lack of workers available to perform duties in agriculture, hospitality, sanitation, security and other jobs.

Enter Concorde America (OTC Pink Sheets: CNDD), a Boca Raton, Florida-based corporation that has developed a unique solution to this problem by offering to recruit, screen, secure the services of and transport qualified worker from Latin American nations to fill the needs of European countries and companies. Concorde America President Hartley Lord elaborates on the importance of the new agreement with the Spanish government: "The recent agreement with Spain is the tip of the proverbial iceberg. The need for qualified labor is rampant throughout almost all the nations of the European continent. Once this first contract is underway and others can see for themselves our global solution in action, we anticipate the floodgates to open."

Management of Concorde America is quick to point out the irony in how the problems of one area of the world can become the solution to the other: Concorde America's Julio Aspe explains, "Workers in many Latin American countries can expect to earn about the equivalent of \$60 a month working the fields or as domestics or security guards. For doing the same work in Spain, Italy or Germany, they can earn over \$1000 a month. In addition, they can provide their families back home with health and dental insurance and even be a part of a pension plan."

Tom Heysek, noted financial advisor, has conducted extensive research on the management team, financial report and the opportunity. "Concorde America has no real direct competitors in the category of labor that they focus on providing, yet the need for this labor is by far greater than for that of more skilled professional help. It's a classic case of supply and demand. Concorde has access to the supply via their arrangements and agreements with Latin American countries and labor pools. Conversely, they have done an excellent job in opening up direct pipelines and cutting through the red tape on the demand side. I would recommend Concorde America to any investor as a strong buying opportunity." Mr. Heysek's full report can be found at <http://www.winningstockpicks.net>.

Concorde America represents an awesome earnings opportunity as a result of an enterprise that offers a practical solution to significant problems affecting different parts of the world: poverty and unemployment in Latin America and zero population growth in Europe. In the words of Concorde America spokesperson Julio Aspe, "No matter how you look at it, Concorde America is a win for all who participate."

Concorde America is traded Over-the-Counter with the symbol CNDD.
