Print Data Corp. (OTC Pink Sheets: PRNT)

Print Data Corp. (OTC Pink Sheets: PRNT) may not be a household name yet, but that may not be far off. The important thing is that it is already very well-known to its customers - Fortune 500 type companies.

For 17 years, the company has served major corporations on the East Coast, through its existing NJ and DE locations. Unlike its better known competitors who rely on expensive retail space and primarily small business clients, PRNT has found a profitable niche - large, loyal corporations who spend over $4 million a year on PRNT's products and services.

Fortune 500 type companies are really not interested in retail locations with all of their limitations. They want real customer service! And that's what PRNT provides. PRNT serves its clients 24 hours a day, 365 days a year. Even if a customer calls in on Christmas Eve, it knows that PRNT will deliver the supplies it needs with a smile.

Needless to say, large corporations appreciate the type of personal service and attention they get from PRNT and have come to rely heavily on it.

OCCUPHY

PRNT recently completed a reverse merger and is now trading on the Pink Sheets. This opens up a whole new strategy for the company it plans to pursue growth through a ROLL-UP STRATEGY!

Consolidation is one of the fastest ways of creating wealth. As a public company, PRNT can use its public stock to acquire other companies. Once merged, PRNT can book the revenues of the companies it has acquired. This strategy can allow PRNT to expand its product and service offerings even further, and increase revenues without time-consuming and wasteful start-up costs. PRNT may also decrease its overall operating expenses and thus increase its profitability.

ACQUISITION STRATEGY

According to the Document Management Industries of America, PRNT's marketplace in the metro NY, NJ, CT and PA areas is huge - representing $1.5 billion+ - yet thus far has been largely overlooked by industry giants. In its quest to roll-up companies in this lucrative marketplace, PRNT has already identified 32 complimentary companies with sales ranging from $1-$30 million each as possible acquisition or merger targets.

PRNT wants to acquire companies booking up to $150 MILLION worth of revenues within 2-5 years. PRNT sees itself as being perfectly positioned to undertake its roll-up plan. It has a seasoned management team and a growing board of directors, and it already oversees one of the industry's most extensive product and service lines.

UNIQUE MARKET SITUATION

Anyone considering an investment in PRNT is in a unique situation. Since PRNT is trading on the Pink Sheets, i.e. one of the Over-the-Counter markets, it is still under the radar screen of major brokerage firms. Most institutions don't even subscribe to these quotes since many Pink Sheet companies are still in the development stage and preparing for their big jump. So, most institutional investors usually buy ONLY after these companies have start trading on the OTCBB, Nasdaq or AMEX.

BILLION DOLLAR QUESTION:

Do you think PRNT is undervalued because of a lack of market awareness and institutional support? What will happen to PRNT's valuation as it grows and if it starts trading on the OTCBB or even AMEX? Where do you think the stock will go when the company begins executing its hoped for $150 million acquisition strategy? To check Pink Sheet quotes, you may go to www.pinksheets.com or www.issuingbull.lycos.com. For additional info on Print Data, go to www.mondialinc.com.

TEL-ONE STOCK JUMPS 40% ON POLYCOM DEAL
Videoconferencing Business Up 600% Since 9/11

Tel-One, Inc.

TAMPA, FL -- The stock of Tel-One, Inc. (OTC BB: TLON) jumped from $2.50 to $3.50 when news hit the wires about the deal signed with Polycom, Inc. (NASDAQ: PLCM). With Tel-One projecting double-digit sales growth as part of the videoconferencing growth boom since 9/11, TLON is a stock that could lead the 2002 bull market by the horns.

There are less than 150 leading companies in the telemedicine field with no market leader. The potential for Tel-One to dominate the market is enormous.

Polycom is a worldwide leader in the convergence of interactive voice, video and data communications. Tel-One will be able to market a full range of high-quality, easy-to-use and affordable voice and video communications endpoints, video management software, multi-network gateways and multipoint conferencing and network access solutions.

About Tel-One, Inc.

Tel-One is positioned to be a telephony market leader for Fortune 2000 companies. Tel-One's major suppliers include 3Com Corporation (NASDAQ: COMS), Polycom Corporation (NASDAQ: PLCM) and Nortel Networks (NYSE: NT). The Company is headquartered in Tampa, Florida with technical offices in Boca Raton, Florida; Irving, Texas; and Melville, New York.

REASONS TO BUY THIS STOCK NOW

1) The videoconferencing industry has skyrocketed over 600% since 9/11. Tel-One is a regional leader in this industry and is poised to break out nationally with the opening of its New York office.

2) The telecom industry is poised to jump from $3 billion to $8 billion. Tel-One's partnering with Polycom and suppliers like 3Com and Nortel Networks gives it the products, partners and network to become a leader in this industry of less than 150 leading competitors.

The Distance Learning industry is a multi-billion dollar worldwide phenomenon. Tel-One is pursuing contracts with federal, state and local governments, as well as private joint ventures to cash-in on its network of Fortune 2000 partners and suppliers.

Our Recommendation:

TAKE ACTION NOW! With the recent 40% price jump in Tel-One's stock as well as a national marketing campaign underway to introduce Tel-One to the investment community, the time to buy this stock is now.

Tel-One is a small cap winner poised for double-digit growth that can rebuild your portfolio. Read about it, research it but take action now if you want to be part of a stock jumping ahead of the upcoming bull market.

To Executives Who Want To Start Making

$250,000 - $500,000
A Year In Personal Income...
Within The Next 12 Months

"I have made a seven-figure income every year for the past three years teaching businesses how to make more money from their marketing efforts—both online and traditionally. I am going to train qualified people in your area to do the same."

Edward Earl

If you're a successful, entrepreneurial-minded person with sales, management, or business experience who wants to start a business that will earn you a substantial six-figure income, then I'd like to talk to you.

My name is Edward Earl; I'm the president and co-founder of Y2Marketing, the nation's leading marketing and e-commerce solutions firm. Six years ago I started this business from scratch and quickly grew it into a multi-million dollar industry leader and personally became a millionaire.

We're Seeking Entrepreneurs To Fill The Overwhelming Demand For Our Services.

Now we are expanding into your area and are aggressively seeking experienced, entrepreneurial people to fill the overwhelming demand for our marketing and internet-related services. This proven turn-key business gives you the flexibility to set your own hours, and allows you to earn an income ranging from $6 to $50 thousand dollars a month within one year of starting, even more after that.

This is NOT network marketing, MLM, or anything like that: it's a REAL business in the highly profitable marketing & e-commerce industry.

Only Experienced and True Entrepreneurial People Will Be Considered.

This is a real business in an extremely prestigious and highly profitable industry. Only entrepreneurial people with sales, management, or business experience need attend.

Take A Look At All Of The Benefits Of Y2Marketing:
- High Income - Paid Weekly
- Bonuses and Incentives
- Turn-Key Marketing System
- No Employees, No Inventory
- Work From Office Or Home.
- Full Training and Support

Don't Take My Word For It, Come And See For Yourself.

I realize that you might be skeptical. At the seminar I will share client case studies and show proof of income potential. Just lend me some of your time—I promise it will be worth it.
