## Wall Street Stocks - TWTN STRONG BUY

**Featuring: Twister Networks – OTC: TWTN**

Ticker Symbol: (OTC Pinksheets) TWTN

Recent Price: \$0.60

Target Price: \$4.00

### BUY THIS STOCK!

### TWTN Offers Ground Floor Opportunity

*In 1999 only 2 million Chinese had web access. By July of 2003, that number had grown to 68 million (second only to the United States).*

TWTN sells for **\$0.60** a share. Soon, almost 100,000,000 million will be able to use Twister Networks to make long distance phone calls over the Internet. Expect that share price to increase – significantly.

**Get in under the radar. Buy OTC: TWTN.** The big telecommunications companies are making headlines and paving the way for VoIP. This is keeping the attention off of Twister Networks. Too bad for others but good for you. TWTN is one of those buy low opportunities that may come around just once in a lifetime.

### Why Invest in the VoIP

It's the old story of supply and demand. One hundred million Chinese and Vietnamese with Internet access can choose to pay more yuan for long distance calls (by using their cellphones) or less yuan by utilizing Twister Networks VoIP. Add to this the fact that Twister will be marketing it's products here in the States as well. Another very important factor to consider is; AT&T, Sprint and the other giants in the telecommunications industry are getting into VoIP in a big way. One might think this would hinder Twisters ability to gain market share. Truth is, when the big guys within an industry enter into a new technology (like VoIP) it gives the technology acceptance and credibility. From that point, the customer looks for the best deal and that will be TWTN.

## TWTN Sets the Standard for VoIP

VoIP stands for *Voice over Internet Protocol*. In other words, it allows people and businesses to make long distance phone calls for up to 60% less by using an Internet connection.

**The TWTN Plan...**In the late 90's the Chinese government considered the Internet a threat. They restricted its use to the privileged few. Today, the government see's the Internet as a means of economic and cultural growth and it's promoting it's use. Twister Networks is positioned to enter the eastern (most populous) portions of China, as well as Vietnam and the United States. As popular as the Internet is in the West, the growth rate pales in comparison to the Far East. Over the last 5 years alone the number of Internet subscribers in China and Vietnam has risen from about 3 million to close to 100,000,000 and this extraordinary growth rate is expected to continue into the near future. Add to this the vastness of China and the fact that a great percentage of Vietnamese families are spread around the world. You can see why a low price Voice over Internet long distance solution like TWTN is...

**Membership in US Health & Fitness Clubs predicted to grow to over 41 million by 2006!**

**"AHFI" is a GROUND FLOOR OPPORTUNITY!**

**AHFI sells today for \$0.91.**

**Research indicates value to increase to \$2.00 within 30-days \$4.00 within 6 months.**

### **AHFI prepares for 300% expansion**

Things are going so well for Absolute Health & Fitness they're preparing to triple in size from their current base of 4 company owned and operated fitness centers to a total of 12 centers. The increase in market share will be as a result of acquisition, so expect the increase in revenue to be quick, as opposed to gradual. We expect the value of AHFI stock to jump almost 300% as well. **AHFI's growth by acquisition is expected to double AHFI revenues to over \$23 million this year.** This will, in turn, increase the number of operating business units to 24.

**The AHFI Plan: Of business categories earning \$10 Billion or more, none are more fragmented than the fitness industries. A lot of mom & pops. Absolute Health is targeting more successful independent units with the intention of bringing them all under one corporate brand umbrella. This plan will enable AHFI to instantly inherit significant market shares, more efficiently and effectively market all units under one brand umbrella and be perched to own a bigger piece of the growing health and fitness pie. This is why we make - - -**

**"AFHI" is a Strong Buy Recommendation!**

### **Why Invest in the Health & Fitness Industry?**

According to the independent Mintel International Group, the health & fitness club category is set to explode to over 41 million paying members by 2006. In the year 2000 revenues for the industry peaked at \$11.6 billion, by 2006 revenues are estimated to reach over \$17.5 billion. Growth within the health and fitness club market is driven by the large number of Baby Boomers entering later years of their lives and increased demand from the Echo Boom generation as they graduate college and move into the workforce. Other driving factors include: increased likelihood of women joining, increased awareness of the link between exercise and good health, the trend for employers to offer health club memberships to employees, and the growing rate of obesity.

**OTC: "AHFI" is on a Roll!**

**Absolute Health & Fitness Plan of consolidating the most popular and trusted local fitness centers and marketing them under one brand umbrella plays right into the dynamics of the growth of the industry. This is your chance to get in under the radar now.**

**OTC: "AHFI" Research indicates shares to be worth \$2.00 within 30-days and \$4.00 in 6 months.**

**What is "AHFI"?**

**Absolute Health & Fitness** currently owns and operates 4 fitness centers in the Southeast, and expects to add another 8 centers via acquisition, resulting in the company generating revenues in excess of \$10 million per year. AHFI will soon enter into a business combination with one other major fitness center operator, which is expected to more than double the Company's revenues to over \$23 million this year. This will increase the number of operating business units to 24.

Physical fitness is an \$11 Billion industry, though extremely fragmented. Absolute Health intends to amalgamate a number of these independent entities under one corporate umbrella. The distinguishing feature between AHFI and the rest of the independents comprising the fitness industry is its intentional focus on consolidating the better-run fitness centers nationwide, especially those local entities with commanding market shares.

## Twister Networks

OTC: TWTN.PK Currently trading at: \$1.45 a share  
Research indicates shares to be worth \$4.00 within 30-days.  
**Look for BREAKING NEWS on TWTN TODAY!**

### What is TWISTER NETWORKS (TWTN)?

Twister Networks is the most dynamic and aggressive of communications firms offering Voice over Internet Protocol (VoIP) services. Twister makes it possible to use the Internet to make long distance phone calls for less than it would cost using regular phone lines.

### Why is TWTN positioned for extraordinary growth?

TWISTER is uniquely positioned to begin providing VoIP service to mainland China, throughout the Far East as well as to hundreds of millions in the Western Hemisphere.

In China, approximately 60% of all long distance calling minutes are attributed to VoIP calling.

*InfoWorld's Oliver Rist says, "Voice Over IP will definitely be one of the darling technologies over the next two years."*

*According to VolPpopchoices.com, "Today there are approximately 150,000 Voice over Internet Protocol customers. It's estimated that, by 2007 there will be over 4.5 million regular VoIP users."*

Small & Micro-Cap Emerging Growth Companies with BIG Potential!

**BUY TODAY. PROFIT TOMORROW!!!**

Ticker Symbol: (OTC Market)	BDYS	RECOMMENDATION:	STRONG BUY
Recent Price:	\$1.82	BDYS is Moving Up Watch it move over \$2 this week!	
Target Price:	\$4.00	Daily Opinion:	STRONG BUY

## BODY SCAN TECHNOLOGIES OTC: "BDYS" – SAVES LIVES!

How would you like to know if you had cancer or heart disease BEFORE it killed you? Or, Maybe before it killed someone you love?

**"BDYS" is a company that is creating the next wave of LIFE SAVING & LIFE GIVING Technologies!**

BodyScan (symbol: BDYS) owns and operates a number of medical imaging centers, utilizing State-of-the-Art technology to image coronary and arterial health for medical practitioners.

At first glance, this may appear to be nothing new, however, BDYS' delivery of this proprietary medical technology to patients is **NON-INVASIVE** and **easily affordable** at less than \$500 per procedure.

Applied advances in medical technology are always compelling investment opportunities for Individual Investors---especially if those opportunities represent companies generating revenues NOW!

This is what makes our assessment of the investment prospects for **BodyScan** so tantalizing. Revenues have increased 50% per year---from \$4 million to \$6 million to \$9 million for the last 3 years.

The scanners installed in BDYS' imaging centers are manufactured by California-based Imatron, and are already installed at

- The Mayo Clinic
- Cedars-Sinai Hospital
- UCLA Medical Center
- National Institutes of Health
- Stanford University
- Arizona Heart Institute

**BUY RECOMMENDATION:**  
**"BDYS"**

## Win BIG – BUY "BDYS"!

**March 8<sup>th</sup> BDYS was trading at \$1.38 and it closed March 22<sup>nd</sup> at \$1.82 (which is a 40% Increase!)**

**WATCH BDYS break the \$2.00 price tag this week on it's way to \$4.00!**

This is not unlike the early days of the for-profit hospitals in the 1970's--- and represents an unusual opportunity for individual investors to financially participate. Add to this some compelling demographic metrics, such as:

- **BodyScan Technologies SAVES LIVES! Baby Boomers are the largest demographic in North America today.**
- **Heart disease is the number two killer of people in this age category; and**
- **According to *The New England Journal of Medicine*, HALF of all heart attack victims exhibit no risk of this disease, based on the usual means of risk-assessment.**

**Bottom line: A BodyScan may have prevented some of the more than 500,000 deaths each year caused by a sudden cardiac event (medical jargon for death-due-to-heart-attack).**

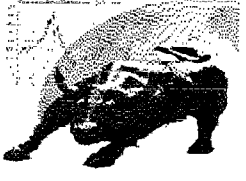

Would you spend \$500 and 30 minutes of your time to assess your risk of heart attack, given the advances in this technology...? Last year, more than 8,000 people visited a BodyScan business unit to do just that. Let's make this simple. BDYS sells for \$1.82 a share. It has a target price of \$4 per share – maybe not next week, but in less than six months.

**Don't overlook this investment opportunity in Body Scan Technologies, "BDYS"!**

## INVESTOR RECOMMENDATION: STRONG BUY!

"TWTN" currently trading at \$1.10 is **headed to \$2.00** in the next 30 days says our Analyst!

The VoIP (Voice over Internet Protocol) Industry is RED HOT! "TWTN" has recently entered the US & Chinese VoIP marketplace and is heading for massive success on a worldwide basis. Read the latest Research Report now by visiting [www.winningstockpicks.net](http://www.winningstockpicks.net).

Look at what these VoIP experts are saying about the VoIP investment marketplace:

- *InfoWorld's Oliver Rist said recently (April 9, 2004), "Voice over IP will definitely be one of the darling technologies for the next two years."*
- *"On January 1, 2004 there were approximately 150,000 residential VoIP customers. It is estimated that by 2007 there will be over 4.5 million VoIP customers." VoIPopchoices.com.*

- **VoIP Growth in China**  
*China Telecom Corp., the former monopoly that still is the country's largest carrier, said in 2003 its VOIP system handled a majority of its long-distance calls -- 29 billion of 54 billion overall minutes -- for the first time.*

**Don't overlook this investment opportunity in TWISTER NETWORKS!**

## INVESTMENT CONCLUSION

VoIP is arguably the last remaining segment of the New Tech Economy that is poised to become ubiquitous worldwide. While VoIP technology is not new, the wide-spread (and growing) consumer acceptance of this service now has produced the kind of mass market to accommodate the volume-based distribution strategy that is fundamental, and at the moment, unique, to TWTN.

### FEATURE OF THE WEEK

#### ALERT - TWTN RECEIVES ORDER FOR 2,000 VoIP PHONES FOR DELIVERY TO VIETNAM - ALERT

Hundreds of millions of Communists are hungry to Communicate and here's your chance to Capitalize!

"TWTN" currently trading at \$.30 cents is headed to \$2.00 in the next 30 days says our Analyst!

The VoIP (Voice over Internet Protocol) Industry is RED HOT! "TWTN" has recently entered the US & Chinese VoIP marketplace and is heading for massive success on a worldwide basis.

With companies like AT&T and Verizon entering this "space" our investment conclusion: TWTN will be one of the companies whose shareholders benefit the most from this industry consolidation. As VoIP companies sell product at the retail level in units of ones-and-twos TWTN is expected to vault ahead of the pack---with sales ramping up smartly to \$5 million this year, almost \$20 million next year and \$33 million in 2006.

#### Twister Networks Inc. (TWTN.PK)

Recent Price:	\$ .30
Target Price:	\$4.00
Rating:	Strong Buy

#### OVERVIEW

In the late 90's the Chinese government considered the Internet a threat. They restricted its use to the privileged few. Today, the government sees the Internet as a means of economic and cultural growth and it's promoting its use. Twister Networks (TWTN) is positioned to enter the eastern (most populous) portions of China, as well as Vietnam and the United States.

*"Voice over IP will be one of the hottest techs for the next 2 years."* InfoWorld's Oliver Rist

As popular as the Internet is in the West, the growth rate pales in comparison to the Far East. Over the last 5 years alone the number of Internet subscribers in China and Vietnam has risen from about 3 million to close to 100,000,000 and this extraordinary growth rate is expected to continue into the near future. Add to this the vastness of China and the fact that a great percentage of Vietnamese families are spread around the world.

*China Telecom Corp, still the country's largest carrier, said in 2003 its VOIP system handled a majority of its long-distance calls -- 29 billion of 54 billion overall minutes -- for the first time.*

#### HIGHLIGHTS

- 300,000,000 potential customers in Asia alone!
- Twister is 100% Focused on VoIP
- Getting in on TWTN today is like getting in on AT&T 30 years ago
- Twister is moving now and those who hesitate will lose
- TWTN is a major force in VoIP and as the category grows so will the value of each and every share.

#### RECENT DEVELOPMENTS

July 29, 2004

Twister Networks Inc. (TWTN) today announced that it has received an order for 2,000 VoIP Internet phones from a firm for the purpose of delivery to Vietnam. This first order earmarked for Vietnam came directly subsequent to the company reaching an agreement to market its VoIP products and services in that country.

July 6, 2004

Twister Networks Inc. (TWTN) today announced that with one of its key U.S. distributors, the company is opening what is believed to be the country's first retail store dedicated solely to Voice Over Internet Protocol (VoIP) products and services.

### FEATURE OF THE WEEK

**\$\$\$ CNDD SELLING FOR \$5.30/SHARE – THERE WILL NEVER BE A BETTER TIME TO BUY! \$\$\$**

### CNDD: Attack of the Short-Sellers

Last Week (August 12<sup>th</sup>), the common stock of Concorde America, Inc. was attacked by a group of short-sellers. For those of you who are not familiar with short selling, it occurs when individuals or groups get together to FORCE the price of a stock down in the hope that they can pick up those same shares at a cheaper price. **In other words, they want to buy your shares cheap!**

**We view this as a tremendous buying opportunity.** Our recommendations are still in place, and we feel that CNDD will see a price of \$38.00 per share over the next 6 months. If you are already invested in the stock, we see this as an opportunity to add to your positions. If you are new to CNDD, this is a great chance to accumulate shares at a price we won't see again.

Concorde America (CNDD.PK)	
Recent Price:	\$ 5.30
6 Month Target Price:	\$38.00
Market Value:	\$1.2 Billion
Rating:	Strong Buy

### OVERVIEW

Concorde America (symbol: CNDD) has secured the first major international worker recruitment and placement contract (over 200,000 workers to Spain) in history.

**Europe's current zero population growth crisis trend will only increase the demand and the value of CNDD. The time is now.**

**1000% percent Profit Potential!**

**Win BIG – BUY "CNDD" Now!**

**From \$3 to \$38 to \$84 within a year**

Concorde America won't be selling at \$5.30 a share for long. Within a day or maybe two the buzz about the Spain Connection – providing over 200,000 workers to help Spain deal with their labor shortage crisis – will spread like wildfire throughout the investment community.

**Bottom Line:** CNDD is a MUST BUY for any small cap investor. Germany, France, Italy and the rest of the EU is watching. As soon as they see that the Spain Agreement is working (which they will) the veritable floodgates will open. After that, those who have gotten on board the CNDD boat will ride a strong wave of earnings for years.

#### CNDD: Attack of the Short-Sellers

Recently (August 12<sup>th</sup>), the common stock of Concorde America, Inc. was attacked by a group of short-sellers. For those of you who are not familiar with short selling, it occurs when individuals or groups get together to FORCE the price of a stock down in the hope that they can pick up those same shares at a cheaper price.

**In other words, they want to buy your shares cheap!**

**We view this as a tremendous buying opportunity.** Our recommendations are still in place, and we feel that CNDD will see a price of \$38.00 per share over the next 6 months. If you are already invested in the stock, we see this as an opportunity to add to your positions. If you are new to CNDD, this is a great chance to accumulate shares at a price we won't see again.

#### OVERVIEW

Concorde America (symbol: CNDD) has secured the first major international worker recruitment and placement contract (over 200,000 workers to Spain) in history.

**Europe's current zero population growth crisis trend will only increase the demand and the value of CNDD. The time is now.**

**1000% percent Profit Potential!**

**Win BIG - BUY "CNDD" Now!**

**From \$3 to \$38 to \$84 within a year**

Concorde America won't be selling at \$3.75 a share for long. Within a day or maybe two the buzz about the Spain Connection - providing over 200,000 workers to help Spain deal with their labor shortage crisis - will spread like wildfire throughout the investment community.

**Bottom Line:** CNDD is a MUST BUY for any small cap investor. Germany, France, Italy and the rest of the EU is watching. As soon as they see that the Spain Agreement is working (which they will) the veritable floodgates will open. After that, those who have gotten on board the CNDD boat will ride a strong wave of earnings for years.

#### PROJECTIONS

CURRENT TRADING PRICE:	\$ 3.75
SIX MONTH TARGET PRICE:	\$38.00
TWELVE MONTH TARGET:	\$84.00

Analytical projections like these are rare. But the global dynamics combined with the business model, plan, resources, management credentials and global positioning of Concorde America make these visions seem almost conservative.

CNDD \$3.75 a share today. Projection of \$38 in 6 months and \$84 in 12 months.

**Concorde America is an investor's chance to be in on the ground floor of a global solution to two major international issues resulting in major earnings for investors.**
